**Meeting Summary**

**Agenda**

- Announcements
- Presentation from Switched Source
- Update to Stage One Reports
- Winter Webinar Planning Discussion
- Concept Paper Scope Discussion
- Other Business

**Discussion**

Announcements

- None

Presentation from Switched Source

Update to Stage One Reports

- Concentric provided a status update for the Stage One Reports, specifically focusing on the development of the Advanced Conductors and Lines (ACL) and Grid Monitoring and Management (GMM) Stage One Reports.

#### Winter Webinar Planning Discussion

- The ATWG reviewed initial plans for the upcoming Winter Stakeholder Webinar, including highlights from the 2024 Annual Report, in addition to mentioning a new Call for Concept Papers.
- Discussion of timing for the Winter Webinar, which remains to be determined.

#### Concept Paper Scope Discussion

- Discussion of which potentially new program areas would be most interesting to look at, considering an initial list of areas from when the ATWG was first formed.
- Concentric to poll the ATWG to determine which areas the group would like to see concept papers for.

#### Other Business

- Brief discussion of the recent NYSERDA Clean Energy Standard (CES) filing
- Discussion of preparation for the Dynamic Line Ratings (DLR) Study, which will likely be on a one-year timeline.
