Advisory Group Purpose & Objectives

Purpose

The Advisory Group (AG) is an open forum for stakeholders who are actively engaged in the REV process and the Distributed System Implementation Plan (DSIP) filings to advise the Joint Utilities of New York (JU) on a productive and collaborative stakeholder engagement process.

Objectives

- AG will meet on a quarterly basis unless otherwise decided by the group
- AG will provide feedback on the structure of stakeholder engagement workshops, conferences, and any report out documents as a part of the 2018 engagement discussions that would advance greater shared understanding
- AG membership will be reviewed periodically and potentially rotated for balanced representation across stakeholder interests

Advisory Group & Engagement Group Ground Rules

- All stakeholder engagement meetings, webinars, conferences, and information exchange are designed solely to provide an open forum or means for the expression of various points of view in compliance with antitrust laws.
- Under no circumstances shall stakeholder engagement activities be used as a means for competing companies to reach any understanding, expressed or implied, which tends to restrict competition, or in any way, to impair the ability of participating members to exercise independent business judgment regarding matters affecting competition or regulatory positions.
- Proprietary information shall not be disclosed by any participant during any stakeholder engagement meeting or its subgroups. In addition, no information of a secret or proprietary nature shall be made available to stakeholder engagement members.
- All proprietary information which may nonetheless be publicly disclosed by any participant during any stakeholder engagement meeting or its subgroups shall be deemed to have been disclosed on a non-confidential basis, without any restrictions on use by anyone, except that no valid copyright or patent right shall be deemed to have been waived by such disclosure.
- Discussions between the Joint Utilities and stakeholders will be open forums without attribution and no public documents will be produced unless publication is agreed upon by all parties involved.

2018 Stakeholder Engagement Plan (Subject to Change)
